

Build Your AI Marketing Team with Agents

Albert Chan + Onigiri (Personalized ChatGPT Dot)

One interview, six roles, and a coordinated campaign.

Your 60-minute course route

01 Interview and create two files

02 Create skills and roles

03 Assign the specialists

04 Coordinate a campaign

05 Use advanced tools and practice

Interview me and create two files

CORE 01

PROMPT 01

Interview me to create brand/context.md and AGENTS.md. Confirm the facts and human review boundary.

Copy the full prompt from speaker notes.

Recording for Prompt 01

brand/context.md

Suggested edited clip length 90 seconds

Inspect the two interview outputs

Inspect the two files created by the interview.

BRAND/CONTEXT.MD
Product, price, shipping, audience, voice, and Current campaign

AGENTS.MD
Source rules, role and skill routing, draft outputs, and human review

COMPLETION CHECK
Open both files and confirm your interview answers.

Skills, roles, and assignments

Each file or role has a clear purpose.

Reusable skill

Ad creative process

Read sources, draft concepts, and check claims.

Specialist agent

Content Creator

Own audience copy and return a checked draft.

Assignment

Create three ad options

Start the task with inputs and an output path.

Create the reusable ad skill

CORE 02

PROMPT 02

Create the ad skill from the two files. Inspect its metadata, process, and completion criteria.

Copy the full prompt from speaker notes.

Recording for Prompt 02

.agents/skills/albert-copper-cup-ad-creative/SKILL.md

Suggested edited clip length 75 seconds

One lead and five specialists

Your review checkpoint

A role card describes a job. An explicit assignment starts an agent task.

+ **Growth Strategist**
  Chooses the audience hypothesis and campaign direction.

+ **Content Creator**
  Drafts supported ads and social copy.

+ **Creative Designer**
  Prepares visual direction and image prompts.

+ **Website Designer**
  Creates a static local offer-page preview.

+ **Growth Analyst**
  Checks synthetic metrics, formulas, and caveats.

Create the marketing team roles

CORE 03

PROMPT 03

Create the lead and five specialist roles, with local Codex wrappers when applicable.

Copy the full prompt from speaker notes.

Recording for Prompt 03

Six role cards and optional local agent definitions

Suggested edited clip length 90 seconds

The strategist chooses an ad direction

CORE 04

PROMPT 04

Start the Growth Strategist assignment. Inspect its chosen direction, sources, and output.

Copy the full prompt from speaker notes.

Recording for Prompt 04

campaigns/discovery-box/run-01/strategy.md

Suggested edited clip length 75 seconds

Copy and design use a visible handoff

CORE 05

PROMPT 05

Assign copy first, then visual direction. Show the saved input and handoff between the two agents.

Copy the full prompt from speaker notes.

Recording for Prompt 05

campaigns/discovery-box/run-01/ad-copy.md

Suggested edited clip length 90 seconds

A handoff includes sources and an output

Each file or role has a clear purpose.

Read the input

Source files

Use the brand context, campaign assignment, and prior result.

Inspect the output

Saved artifact

Open the returned file and check its contents.

Confirm the handoff

Next owner

Name the review decision or next specialist.

One campaign goal coordinates the team

CORE 06

PROMPT 06

Coordinate the five specialists, inspect their files, and merge a reviewed campaign package.

Copy the full prompt from speaker notes.

Recording for Prompt 06

Social drafts, visual direction, page preview, findings, and review

Suggested edited clip length 120 seconds

Prompt 06 · Full text and input list in the speaker notes

The review checks outputs and decisions

Each file or role has a clear purpose.

Campaign assets

Offer and CTA

Check the copy, page, and visual direction.

Metric findings

144 ÷ 720 = 20%

Confirm the denominator and synthetic-data label.

Human review

Choose the next revision

Inspect sources, gaps, and pending external actions.

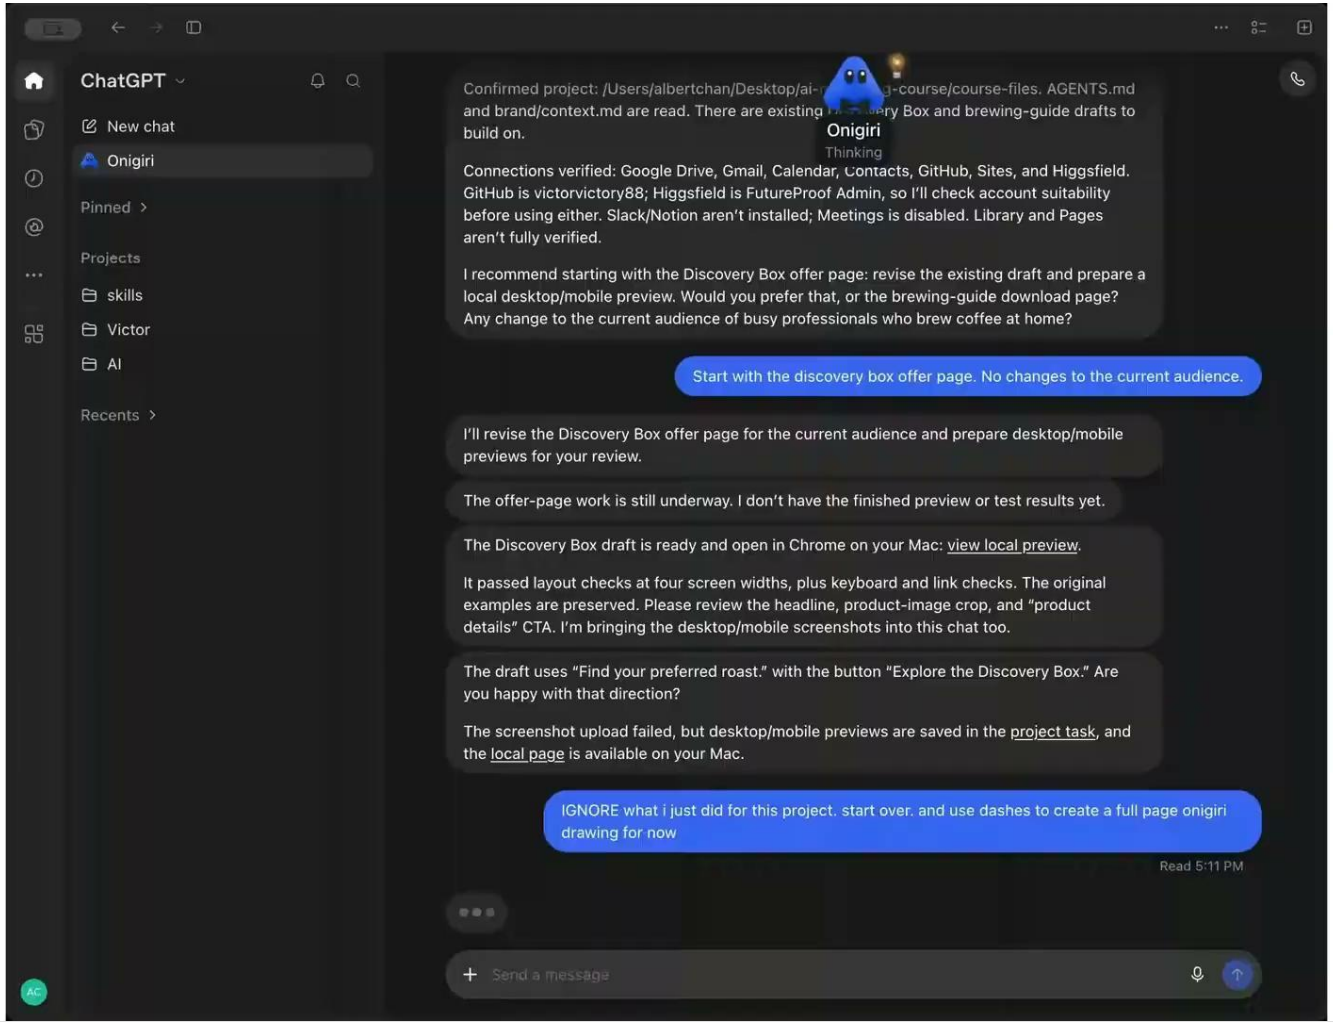

Onigiri coordinates through voice and chat

CORE 07

PROMPT 07

Use Onigiri through voice or chat. Return a written task reference, checked result, and pending decision.

Copy the full prompt from speaker notes.

A private Page keeps the campaign together

CORE 08

PROMPT 08

Save the reviewed campaign, sources, and full prompts in a private Page or document fallback.

Copy the full prompt from speaker notes.

Recording for Prompt 08

A private campaign Page or a structured document fallback

Suggested edited clip length 60 seconds

A brief leads with the next decision

CORE 09

PROMPT 09

Draft a decision-first marketing brief and propose bounded routines. Keep schedules disabled.

Copy the full prompt from speaker notes.

Recording for Prompt 09

One-time marketing brief and two disabled schedule proposals

Suggested edited clip length 75 seconds

Your ten-minute guided exercise

Prompt 10 changes the audience and preserves the supported offer.

MINUTES 0–2

Inspect the audience

Keep the supported product, price, and CTA fixed.

MINUTES 2–7

Create one concept

Use prompt 10 and inspect the role handoffs.

MINUTES 7–10

Review and share

Trace a claim and choose one revision.

Adapt and review your campaign concept

CORE 10

PROMPT 10

Adapt one concept for a new audience. Trace the claims and preserve the supported offer.

Copy the full prompt from speaker notes.

Recording for Prompt 10

One new audience, one concept, one checked review

Ten-minute exercise · Optional 60-second example

A reviewed result includes evidence

Each file or role has a clear purpose.

Evidence

Trace one claim

Point to the file and source supporting it.

Consistency

Check the offer

Confirm three 100 g bags, USD 29, and USD 5 shipping.

Revision

Choose the next change

Explain the change and its review owner.

Open Q&A

Name one file, one agent assignment, and one source check.

Complete session
Prompts 01–10 run in teaching order.

Reference files
Use the prepared examples for comparison.

Next campaign
Change the brand facts and brief, then inspect each new file.

Files created during this session

INTERVIEW · PROMPT 01
brand/context.md and AGENTS.md

SKILL · PROMPT 02
Ad creative SKILL.md

ROLES · PROMPT 03
Six agents/*.md role cards
Local .codex/agents/*.toml

STRATEGY · PROMPT 04
run-01/strategy.md

COPY AND DESIGN · PROMPT 05
run-01/ad-copy.md and visuals

CAMPAIGN · PROMPT 06
coordinated-01/ outputs
data/classroom-campaigns.csv

CONNECTED TOOLS · PROMPTS 07–09
Task links, private library, and brief

EXERCISE · PROMPT 10
exercise-01/ assignment and review

A role definition and an active assignment

OWNS
An audience hypothesis and ad direction

INPUTS
Brand context and Current campaign

MAY DO
Compare angles and draft a test

ASKS BEFORE
Sending, spending, or publication

WHEN UNSURE
Name the missing source or input

DONE WHEN
Strategy saved with supporting sources

ROLE FILE
agents/growth_strategist.md

ACTIVATION
Prompt 04 starts the assignment

Your tools and access

Choose one file-capable environment for the core lesson.

+ Local Codex

  Open a new copper-cup-beginner folder.

+ ChatGPT Work

  Create a fresh workspace and inspect saved files.

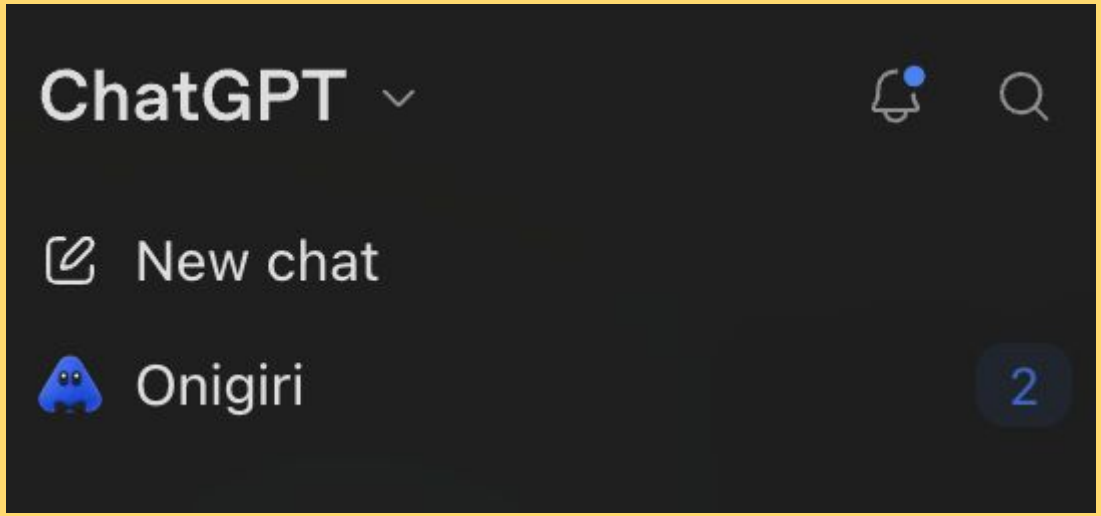

+ Onigiri during this session

  Voice and task results appear in prompt 07.

+ Your starting files

  The interview creates the two foundation files.

Sources and course adaptation

The beginner sequence starts with raw facts and an empty project.
